

Izmantošana

For handling of workpieces with sloping using large-area vacuum gripper

Handling of large plates that can sag when lifting

In combination with spring plungers to compensate height-differences and Unevenness

Īpašas pazīmes

very good adaptation to oblique workpiece surfaces

automatic Rückstellung in die Ausgangslage

vacuum-tight design with integrated protection against damage

Apraksts

Flexible suction pad mounting. By flexing in all directions, this mounting allows the suction pad to better adapt itself to sloping workpieces.

Norādīt
